

Tire pressure is important PSA with Jordan Scott

A man is crouched along car, next to tire.

“...Maintaining your proper tire pressure, it saves wear and tear on your tires, it improves your gas mileage, and it's my safety at stake!

Under-inflated tires can cause blowouts... so let's take a look at that pressure (checks tire pressure).

(reads device) Perfect!

Text:

Check with your tire manufacturer to see what PSI they recommend

And then, check the pressure monthly
